### ***REASONS FOR ALLOWANCE***

1. The following is an examiner's statement of reasons for allowance: The present invention a digital filtering system method. Independent claims, 1 and 15 - 19 disclose this method, which comprises producing a filtered output by computing a weighted product summation of delayed sample data outputs and coefficient weighting matrix. A search of prior art references fail to disclose a method comprising a "processor being responsive to a sample spatial position index signal in producing said filtered output" as disclosed in claim 1 of the application. Prior art also fails to disclose "processing said delayed sampled data outputs using a filter network represented by a structurally factored coefficient weighting matrix" along with the remaining limitations as disclosed in claims 15-19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***INFORMATION DISCLOSURE STATEMENT***

2. The information disclosure statement (IDS) submitted on 02 July 2004 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***CONCLUSION***
